

PROFESSIONAL DEVELOPMENT & INVESTITURE

SUNDAY NOVEMBER 7TH, 2010

Under the Auspices of the World Organization of Natural Medicine and its affiliates; Board of Natural Medicine Doctors & Practitioners-North America & Board of Integrative Medicine and WONM Universities Federation.

PERSONAL INVITATION TO ALL MEMBERS

You are cordially invited to a fascinating fall 2010 **Professional Development Day** held by the World Organization of Natural Medicine in collaboration with the Board of Natural Medicine Doctors and Practitioner-North America, Natural Medicine Council and the Board of Integrative Medicine, for which you will receive Continuing Education Credits. CEU credits for renewal of membership is 20 hrs for doctors and 10 hours for practitioners annually for certification.

You may be aware of the many changes within the healthcare professionals' role in North America. If you practice in British Columbia and Ontario, these regulations will be impacting your ability to deliver natural medicine healthcare services even more in the near future.

There are many questions raised by practitioners to directors on a daily basis, which we believe is better for us to provide answers in a group setting. This end of the year Professional Day is intended for members to get answers to their questions, learn strategies to improve their practice and for networking. There will be a morning presentation over a four hour period with three presenters. In the afternoon, there will be an investiture ceremony for new members and graduates of the Canadian College of Humanitarian Medicine.

TOPICS FOR ROUND TABLE DISCUSSION

- "DOCTOR" or "Doctorate" title
- Relationship between Board of Natural Medicine & Board of Integrative Medicine
- World Organization of Natural Medicine & why the boards are sub affiliate groups of WONM
- WONM Universities Fellowship and Doctorate programs
- Humanitarian Medicine activities under WONM Clinics for Humanity
- Regulation of TCM, Acupuncture, Naturopaths, Homeopaths and how your practice will be affected
- Doctor of Humanitarian Service and Practitioners of Humanitarian Service are they new designation?

The restriction of many natural medicine products and recent banned of colloidal silver by Health Products Canada is also a problem for many practitioners, to this end Dr. **John Stewart from Biophysica Incorporated Environmental Sciences Consulting**, will be providing you with information on how to make your own in office colloidal remedies which are very effective and inexpensive for you and your clients.

Please call **416 465 4833 or 416 756 9355** to confirm your attendance ASAP as seating is limited. If you would like to bring a friend to the evening event, please use the enclosed invitation and let us know in advance how many guests you are inviting (maximum 2).

Location: Radisson Hotel-Toronto, 55 Hallcrown Place (401 & Victoria Park Avenue off Consumers Road, Tel: 416 493 7000 Toll Free 1 800 333 3333 ► Continue on back side
